Bi-active Sealer

PI-G
Bi-active Sealer

The PI Impulse Sealer is a heavy duty, pneumatically operated, floor standing sealer that is built for years of trouble free service. The bi-active seal jaws allow the PI to be used to seal most heat sealable materials.

Standard Features and Benefits for PI-G

- 5/16" wide seal element in each jaw
- Seal lengths: 12" to 36", twin head to 60"
- Independently controlled rotary switch timers for seal and cool.
- Analog pressure gauge for monitoring seal pressure
- Seal cycle activated by foot switch

Specifications:	PI-G
Seal Length:	12" to 36"
Seal Width:	5/16"
Electrical:	115 VAC
Air:	100-120 PSI
Options:	
- Bag Stretcher	- Water cooling
- Stainless Steel Frame	- Bag trimming
- Stainless Steel Workshelf	- Temperature controller with readout
- Embosser/Printer
