

# Ranpak Cushioning Systems... the Natural Choice

# PadPak<sup>®</sup> AutoPad<sup>®</sup> Senior

*powerful in protection,  
versatile in application*

## Excellent Cushioning Performance Created by a Multi-ply Paper Pad

The PadPak AutoPad Senior is an extremely versatile 2- or 3-ply paper packaging system that can accommodate all in-the-box packaging needs and applications from cushioning to wrapping, and blocking and bracing.

The PadPak system converts multi-ply kraft paper in to cushioning pads to protect your products. Inside the converter, the paper layers are crimped together, trapping air inside the layers to form a cushioning pad. The pads can be produced on demand or by batch production. Extremely versatile, the converter is height adjustable, rotates and can be used in a vertical or horizontal position.

**Versatile** - several modes of operation allow for batch production or in-line, on demand use

**Flexible** - adaptable and adjustable for seamless integration into any packing environment

**Excellent Shock Absorption** - 2- or 3-ply pads provide excellent cushioning

**Environmentally Friendly** - 100% biodegradable, recyclable and renewable paper

Protection is in our nature™

# Specifications

## Converter (approximate measurements)\*

<b>Width</b>	34"
<b>Height</b>	13"
<b>Depth</b>	65"
<b>Weight</b>	495 lbs.
<b>Power</b>	120 VAC, 60 Hz, 10.4 Amps
<b>Feed Rate</b>	16 inches per second
<b>Controls</b>	Located on remote box
<b>Cut Method</b>	Electronic motor with clutch
<b>Packing Height**</b>	42" - 62" (chute height)
<b>Operating Modes</b>	Foot Pedal, Automatic, EDS and Keypad

\*Size specifications refer to the converter only and do not include the converter stand or accessories

\*\*Measured with machine in horizontal position

## Paper Roll (Regular, Double, Jumbo or Jumbo Adhesive)
